

# Photovoltaic panel acquisition factory

## Overview

---

Materials science giant Corning is betting on US solar, buying Chinese-owned JA Solar's 2 GW factory in Arizona as clean energy tax credit rules tighten. JA Solar's Phoenix-based solar panel factory will now operate under American Panel Solutions, a new subsidiary that Corning owns. Corning, a materials science specialist, takes a step further into the U. Considering that President Trump, President Biden, and President Trump again have continued the protectionist trend for a decade now, it does seem wise to build solar module and battery factories in the US (for now), as solar panels and batteries are critical products of the coming years and. In the latest development, Corning Incorporated, a global materials leader, has announced the acquisition of JA Solar Technology's 2GW photovoltaic module factory in Arizona, signaling continued expansion of local manufacturing by new players in the U. The facility will be operated.
