

# Photovoltaic panel automatic grading machine

## Overview

---

com This vertical grading machine uses a sun simulator to flash and test the power output of each solar panel, categorizing the panels into different levels based on their power. Discover more Horad, as a specialist manufacturer of intelligent PV panel production line, is committed to providing complete PV module manufacturing solutions for global. Solar Panel Vertical Grading Full Automatic Production Line, Sort by test power #solarpanel <https://www.5>, Electricity and air failure protection. All PV module making. Minimize site preparation and grading with an adaptable system that can support almost any foundation design. In alignment with the customer 's project schedule, we complete order delivery before the mutually agreed delivery.

## Photovoltaic panel automatic grading machine

---

### Sorting & Packaging Machines , Solar Panel Making Machine , Horad

Our portfolio includes not only automatic solar panel production lines, but also individual equipment for PV modules production, from glass loading equipment at the beginning to solar panel assembly and ...
