Overview

Solar streetlights for highways and major roads are an effective way to provide illumination while utilizing renewable energy. An Idaho-based company conveniently named Solar Roadways has been working on the development of (you guessed it) solar panels -powered roadways. These solar roadways are driveable highways built with special solar road panels designed to generate enough energy to offer lighting, heating, and other. Whether it's a busy urban street or a rural roadway, our solar-powered lights, with 365 Nights of Guaranteed Lighting, ensure safety and visibility in every condition. We have satisfied the needs of many solar lighting project needs, from providing a single solar lamp post light, designing and installing. Solar street lighting is a sustainable and cost-effective solution for illuminating streets, highways, rural roadways, access roads and more.

Photovoltaic panel highway lights

Solar lighting for roads and streets

Whether you're looking for remote monitoring, scheduled dimming, or theft-proofing, Sol has a solar lighting option for you. All our products are built tough, reliable, and 100% solar powered.
