

# Photovoltaic panel hoisting

## Overview

---

The FUEL™ Solar Lift fills a gap in the solar installation industry between expensive powered lifts that are time-consuming to set up and the unsafe practice of carrying solar panels and equipment up or down a ladder. Your video file is being uploaded. The currently loaded video is. The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville extension ladder. A pulley system is attached to the top of the ladder. A patented module “hook” attaches to the edge of a PV module frame and. RGC's Platform Hoists and Swing Hoists are essential tools for solar panel installations, offering safe and efficient solutions for transporting heavy and bulky materials to rooftops and elevated areas. This is an excellent option for projects located in remote, off grid, or new construction areas where power is not readily accessible. This product comes with everything you need to.
