

Photovoltaic panel investment return

Overview

The return on investment of a solar panel installation depends on its location, performance, efficiency and size, but 10% is average. You can maximize your solar panel ROI by taking advantage of rebates and other incentives and participating in net metering through your local. Since solar panels are warranted for 25 years, any energy you generate beyond the initial payback period represents a profit on your investment. Wondering how to calculate your payback period and solar panel return on investment (ROI)?

Let's do the math. 16/kWh see the strongest returns, with payback periods as short as 4-6 years in high-rate states like California and Hawaii.
