

# Photovoltaic panel measurements on utility poles

## Overview

---

Pole Mounted Solar Panels are commonly available with one to four rows of landscape oriented solar panels. The maximum pole height is 8' (2. The solar angle should be between 10-40 degrees. When placing an order, specify the mount model and the panel size (for example: UPM 10X "A", or SOP-Y "C"). Also, we will want to know the quantity and type of panels you will be using just to be sure the sizing is correct. Mounting post to be supplied by installer. Top-of-pole systems can support anywhere from 2 to 50+ panels in various configurations: Most top-of-pole mounts include manual tilt adjustment mechanisms that allow users to optimize panel angle throughout the. Easy installation and infinite options with Tamarack's full line of vertical-mount solar panel hardware We produce a variety of mounts addressing the wide range of mounting options in small scale and ad-hoc installation applications

### Why Use Pole Mounted Solar Panels?

Tamarack Side of Pole mounts. Systems from 10 Watts to 480 Watts using pole-mount solar panels can easily be mounted on vertical poles ranging from 2" to telephone poles.
