

Photovoltaic panel medium pressure block purchase

Overview

Cheap high-quality Factory selling solar panel photovoltaic module bracket accessories side pressure block aluminium alloy medium pressure block wholesale. Aluminium Mid Clamp (also known as middle clamp) is one of the important solar mounting accessories, which is used for clamping solar panels between two solar modules. It's assembled with bolt and nut together, and fixed with rails to firmly clamp panels from wind and any other shaking. Material: Aluminum alloy, the solar clamp components are made of anodized high-strength corrosion-resistant, UV-resistant, high-frequency insulating aluminum alloy. This supplier mainly exports to the United States, Mexico, and Spain, and offers full customization, design-based customization, and sample customization services. They also provide FBA forwarding services. For accessories we use. Solar panel brackets are suitable for supporting the reinforcement between solar panel, and their application scenarios are very wide: RVs, roofs, boats, yacht decks, industrial buildings, have great advantages, even with various irregular surfaces can be installed.

Photovoltaic panel medium pressure block purchase

Factory selling solar panel photovoltaic module bracket accessories

Get bulk high-quality Factory selling solar panel photovoltaic module bracket accessories side pressure block aluminium alloy medium pressure block for sale directly from suppliers.
