

# Photovoltaic panel outdoor modification

## Overview

---

Patio covers, awnings, and gazebos can make outdoor space more comfortable and functional. New products on the market can take them a step further by turning your patio cover or gazebo into a mini power plant with the addition of solar panels. This stored energy powers the light when the sun goes down. Various aspects affect the efficiency of solar lights. SunCommon's Solar Canopy comes in multiple sizes to suit your energy needs and is our most productive system per square foot. Whether you have limited space, specific aesthetic preferences, or unique installation challenges, these ideas will help you make the most of your solar panels.
