230|400V

Overview

Solar panels generally come with two warranties: The product warranty covers the equipment and typically guarantees at least 10-12 years without fail, and the power or performance warranty often guarantees at least 90% production at 10 years and 80% at 25 years. Solar panel warranties are one of the most important factors to consider when comparing your panel options, and are critical to protecting your five-figure investment. However, sifting through pages of dense documentation can be intimidating and confusing, and warranties vary by both manufacturer. Solar panel warranties protect you from things like panel damage and rapid degradation of your panel efficiency. Unfortunately, not all solar. Solar panels are a substantial investment with various warranties, encompassing contractor commitments, manufacturer assurances, and innovative solutions like Solar Insure's monitoring and warranty product. Like many aspects of a photovoltaic (PV) system, understanding solar.
