

Photovoltaic panel welding tape manufacturer

Overview

At Engineered Materials, we supply OEMs and solar system manufacturers with custom-fabricated PSA tape solutions that support efficient, durable solar panel assembly to help maximize energy production. Their advanced formulations are resistant to continual high temperatures, UV light and moisture. They are increasingly being used to help control costs, speed assembly and improve product. Here at tesa, we have developed proven, efficient, and reliable adhesive tape solutions to meet the needs of today's solar industry. Today, we are a leading manufacturer of tapes, adhesives and films for bonding, protecting, masking, appearance enhancement, cushioning, mounting and more. It's also easier to use and clean. Norgard® Front Sheet ETFE Film is manufactured from a high-performance fluoropolymer resin. They provide high levels of resistance to chemicals and weathering as well as low flammability, stress crack resistance, and insulating properties.

Photovoltaic panel welding tape manufacturer

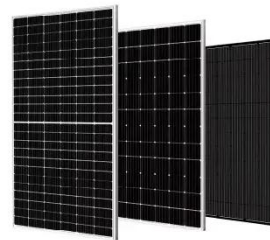

Bond with trust.

3MTM Solar Edge Tape 1060 is specifically designed for solar module sealing and protection. It consists of high-quality acrylic foam adhesive with superior weathering black backing film.
