

Portugal peak shaving

Overview

A Solar Power Purchase Agreement (PPA) with storage for peak shaving is a contract where businesses install solar panels and battery storage without upfront costs. Instead, they buy the energy produced at a fixed, usually discounted rate over a long-term period. To address these challenges, peak shaving has emerged as a highly effective strategy for reducing electricity costs, optimizing energy consumption, and enhancing grid stability. Peak shaving is a method that involves adjusting battery charging and discharging based on load fluctuations to minimize. As a Portuguese expatriate of over 20 years, deeply in love with my heritage, I have rediscovered my roots and uncovered extraordinary regions, people, and products. Additionally, in the summer and winter seasons, the hours of highest consumption are from 8pm to 10pm.
