

# Power supply price of solar system

## Overview

---

The average cost of solar panels ranges from \$2.50 per watt installed, with most homeowners paying between \$15,000 and \$35,000 for a complete system before incentives. The total price depends on your system size, location, roof type. Partner your group with SolarTech and dominate the solar energy market. Department of Energy (DOE) Solar Energy Technologies Office (SETO) and its national laboratory partners analyze cost data for U.S. solar photovoltaic (PV) systems to develop cost benchmarks. Published: February 2026 Solar panels cost about \$21,816 on average when purchased with cash or \$26,004 when purchased with a loan for a 7.
