

Price list of photovoltaic power generation assembly panels

Overview

This updated price list breaks down photovoltaic system costs across residential, commercial, and industrial markets. Global estimates are used before 2010; European market benchmarks thereafter due to limited data availability. Solar photovoltaic panel prices vary like. Each year, the U. Department of Energy (DOE) Solar Energy Technologies Office (SETO) and its national laboratory partners analyze cost data for U. These benchmarks help measure progress toward goals for reducing solar electricity costs. Solar panel costs range from \$16,600 to \$20,500 for the average 6.5 kW system, but prices can vary from as little as \$7,700 for smaller solar systems to upward of \$34,700 for larger systems. 00 per watt, with an approximate overall system installation price between \$15,000.
