

# Price of photovoltaic panel installation with shaft

51.2V 150AH, 7.68KWH

## Overview

---

Solar panel installation cost averages \$27,181 for a standard home, with most homeowners spending between \$18,351 and \$36,409. Prices vary based on system size, panel type, and installation complexity. Solar panels can sharply reduce your monthly energy bills. NLR analyzes the total costs associated with installing photovoltaic (PV) systems for residential rooftop, commercial rooftop, and utility-scale ground-mount systems. NLR's PV cost benchmarking work uses a bottom-up. Installing solar panels can be one of the most impactful improvements you can make - allowing you to take control of electricity bills, protect your home from outages and increase the value of your property while producing energy directly on the roof. **How Much Money Can You Save Using Solar?**

On average, homeowners save approximately 20% on their power bill when they switch to solar power. Where you live, the number of panels you need, maintenance requirements, and available rebates all determine the final price.
