

# Price of small DC inverter

## Overview

---

It is used to convert the low voltage DC power from a solar panel or other DC source into standard household AC power. Carbon emissions from the lifecycle of this product were measured, reduced and offset. ClimeCo certifies products whose carbon emissions have been assessed, verified, decarbonized, and are on a committed path towards continual emissions reductions. Companies may pursue emissions reductions for. Compared to smaller or less powerful options, like the DEWALT DXAEP1140 or FOVAL 150W inverter, the BESTEK offers more wattage, better protection, and faster charging. It is used in places where there is no power outlet or where the power outlet does not have enough power to run electronic devices.
