

Selling energy storage batteries

Overview

This guide shows you how to position storage as the essential half of a complete solar system, handle common questions, and use visuals to make the value crystal clear. Battery storage is now mainstream, so your value is not the product. It is how clearly and confidently you. Battery storage is becoming standard, which means homeowners need clearer explanations and reps need sharper tools. Battery. Driven by lucrative subsidies in the form of tax credits from the Biden-Harris Administration's Inflation Reduction Act, big companies with large tax bills are cutting them by investing in battery storage companies. But if you've already looked into this, you've probably realized something: selling BESS is not as straightforward as selling solar. The market is full. Ever wondered why your neighbor suddenly installed a wall-sized battery in their garage?

Welcome to the \$33 billion global energy storage revolution that's generating nearly 100 gigawatt-hours of electricity annually [1].
