

Server rack AC DC integrated manufacturer

Overview

Server Technology produces the highest quality Data Center rackmount power distribution units (PDUs) and monitoring solutions. TDK-Lambda is a global supplier of rack mount and hot swap AC-DC power supplies in a broad range of power levels to fit many applications. Our factory-trained technicians provide a range of on-site services, including commissioning, maintenance and repairs, to help ensure your 3-phase UPS systems maintain peak performance over their entire operational life. For assistance with service selection, planning and scheduling, contact an. Higher data transfer speeds, low latency, and constant availability require more computing power, which in turn means higher power densities per rack. Commander II+ also features built-in 12V and 24V options, all in a single chassis. Our passion is to push back the boundaries of Rack PDU technology and deliver groundbreaking innovations in hardware and intelligence such as the. Our rack mount power supplies deliver reliable, programmable DC power in a compact form factor that fits directly into standard 19" racks—making them ideal for ATE systems, production lines, and high-density test environments. With remote control capabilities via USB, LAN, or GPIB, you can automate.

Server rack AC DC integrated manufacturer

SmartRack Rack-Mounted Server Rack Cooling Unit

This space-saving, energy-efficient unit is perfect for data centers, server rooms, network closets and other environments with heat-sensitive rack-mounted equipment and limited floor space.
