

# Several energy storage projects in prairie have been suspended

Energy storage(KWH)

**102.4kWh**

Nominal voltage(Vdc)

**512V**

—  
Outdoor All-in-one ESS cabinet

## Overview

---

Four trade bodies have written to the government claiming there is no technical or legal requirement to postpone a national auction planned to procure energy storage projects. A national procurement round for energy storage systems, planned in the second half of the year, is at risk of lengthy delay just as the grid operator is being forced to curtail large volumes of excess clean electricity. The Brazilian energy storage market is at a crucial point. This Portuguese marvel isn't just another battery farm - it's a 200MW/800MWh game-changer that could power 150,000 homes during peak demand.

## Several energy storage projects in praha have been suspended

---

### Brazilian trade associations oppose potential delay to energy ...

Four trade bodies have written to the government claiming there is no technical or legal requirement to postpone a national auction planned to procure energy storage projects.
