

# Seychelles \$7.5 billion energy storage battery project

## Overview

---

In response, the Bipartisan Infrastructure Law (BIL) provides \$7. The goal is to install 500,000 public chargers—publicly accessible charging stations compatible with all vehicles and technologies—nationwide by 2030. It highlights that developing countries need renewable energy investments of about \$1.7 trillion each year but attracted only \$544 billion in clean energy FDI in 2022. Although investments in renewables have nearly tripled since 2015, most of the money has gone to developed countries. The report.
