

Sierra leone microgrid development

Overview

An initiative to transform the energy landscape in Sierra Leone through the installation of solar mini-grids has been unveiled. Known as the Salone Off-Grid Renewable Energy Acceleration Initiative (SOGREA), it is being financed by the European Union (EU) in collaboration with the. SOGREA is partnering with the Government of Sierra Leone and the private sector to unlock new investments that will expand electricity access through green mini-grids, accelerating progress toward the country's universal energy access goals. The announcement was made on Oct. However, constrained by a weak foundational power grid, the country has long faced challenges of electricity shortages.
