

# Solar energy storage capacity configuration in Cameroon

## Overview

---

Scatec signed two lease agreements with Cameroon's national electricity company, ENEO. The deals will expand Scatec's solar and battery storage capacity in the country to 64. 2 GWh of BESS across two sites. The project, led by Release, a subsidiary of Norway's Scatec, in partnership with. Release by Scatec, a subsidiary of the Norwegian group Scatec, has begun a major expansion of its solar and battery plants in the northern Cameroonian cities of Maroua and Guider. The groundbreaking ceremony on Monday, September 15, marked the second phase of a project that has been operational. Norway-headquartered renewable energy company Scatec will add 28. The overall pumped-storage potential of Cameroon could therefore be estimate at 4 G dro and solar power on its territory.

## Solar energy storage capacity configuration in Cameroon
