

# Solar panel factory under construction in Libya

## Overview

---

The nation has officially signed a contract with French energy giant TotalEnergies to construct a 500 MW solar power plant in the southern region of the country. Yet such a large-scale industrial project requires a sophisticated structure, one that balances public interests. The construction of a solar photovoltaic power plant is already underway in Kufra, with a planned capacity of 100 MWp. When did solar PV systems start in Libya?

In 2003 the installation of solar PV systems to some rural areas started in Libya. Abdul Salam Al-Ansari, the head of the Renewable Energy Authority.
