

Solar power generation equipment manufacturing

Overview

This section provides an overview for solar power generation equipment as well as their applications and principles. These firms produce solar panels, storage systems, inverters, and installations for diverse markets, including residential. Shanghai Electric Power Generation Group is the core industry sector of Shanghai Electric Group, specializes in power generation equipment manufacturing, power generation engineering and full life-cycle service. Of these manufactured materials for the energy and power generation industry, our custom supply chain solutions include: Alliance Fabrication and Manufacturing. The global solar PV manufacturing equipment market size was valued at USD 16.6 billion in 2024 and is set to grow at a CAGR of over 23.
