

Solar pv tunisia

Overview

The Tunisian government says concession and authorization frameworks are advancing multiple PV projects, while new entrants including SoleCrypt plan additional plants, boosting capacity, self-generation, and panel imports. From pv magazine France After years of delays, Tunisia is accelerating. French renewable energy company Voltalia has successfully secured the development rights for the 132MW Wadi solar project in Tunisia. The project is located in the Gabès region of southeastern Tunisia. The contract represents Voltalia's third solar project in Tunisia since May 2024, bringing its total capacity under development in the. The Wadi solar project is Voltalia's third PV project in Tunisia and is set to begin construction in 2027.
