Sophia Energy Storage Project 2025

SOPHIA is an EU-funded Horizon Europe project that aims to implement advanced digital solutions in end-of-life solar

panels, involving the full value chain in order to increase their current reuse, repair and recycling rates.

Sophia Energy Storage Container Power Station Enterprise

How can a mobile energy storage system help a construction site? Integrate solar, storage, and

charging stations to provide more green and low-carbon energy. On the construction site, there is no grid power, and ...
