

South African integrated energy storage battery company

Overview

Envision Energy will deliver 257 MW of capacity and 1028 MWh of energy storage as part of the BESIPPPP program, marking a key step in South Africa's energy transition. We specialize in manufacturing premium Lithium-ion Battery Storage Systems that meet a wide range of energy demands. Not only are our solutions designed to efficiently harness renewable energy, but they also offer flexible, sustainable power options. We deliver Low Voltage, High Voltage, and. CAPE TOWN, South Africa, J/PRNewswire/ -- Globeleq, a leading independent power company in Africa, together with its project partner, African Rainbow Energy, announced that they have reached commercial close on the 153 MW/612 MWh Red Sands battery energy storage project (Red Sands). In a major win for South Africa's clean energy transition, Globeleq and African Rainbow Energy have officially reached commercial close on the 153 MW / 612 MWh Red Sands Battery Energy Storage System (BESS) —now Africa's largest standalone battery energy project to achieve this milestone. Straddling the Western and Northern Cape. Envision is the first energy storage system supplier in the region to secure a GWh-scale order. Credit: The Desert Photo/Shutterstock.
