

Southeast Asian solar panel import prices

Overview

government has finalized severe tariffs on imports of solar panels from four Southeast Asian countries, in connection with a complaint filed last year by major U.S. manufacturers. The tariffs would go into effect after and only if the U.S. International Trade Commission makes a final determination (by June 2). The U.S. In a higher-for-longer tariff environment, how the industry future-proofs its supply chain will set the stage for the longer-term outlook The US. Here is the breakdown of tariff rates for different countries: The U.S.-based manufacturers say that Chinese companies based in Cambodia, Vietnam, Thailand, and Malaysia are dumping cheap solar panels on the American market.
