

Swedish energy storage battery brand

Overview

Global Energy Storage Solutions Battery AB (GESS) provides battery energy storage systems for wide variety of applications from small residential installations to large commercial projects. Our systems are specially designed for Nordic Region. Sweden is recognized as one of the pioneering countries in sustainable and environmentally friendly technologies, including in the battery industry. The materials used are abundant and available in Europe – free from conflict minerals and toxic elements. Northvolt AB is dedicated to producing sustainable lithium-ion batteries that significantly reduce carbon emissions, aiming to support electrification and renewable energy storage. Specializing in innovative energy storage systems and solar power solutions, GESS is committed to advancing the energy market with new designs and. Grid-scale energy storage by organic flow batteries Rivus Batteries – Grid scale energy storage by organic flow batteries Rivus addresses the urgent need for cost-effective energy storage, targeting the growing >€50B market for stationary battery storage by providing green and ultra-low cost. Sweden is home to several battery companies that specialize in the production of advanced batteries for various applications.
