

The blades of the wind turbine at the seaside

Overview

The blade of the turbine, which was manufactured by GE Vernova and is part of the Vineyard Wind project, broke off in July and affected Nantucket beaches with fiberglass shards and floating debris. Debris even made its way to multiple beaches in Falmouth on Cape Cod. The town said in a statement that the "remaining portion of the blade had come down at approximately 6:40 AM. Coast Guard said they received a report of "a piece of. A wind turbine with a partially broken blade on May 2 in Akita (Takashi Takizawa) AKITA—An elderly man died on May 2 after being found collapsed on the ground near a broken blade from a wind turbine here, police said.
