

The cost of laying photovoltaic panels

Overview

Solar panels can lower your electricity bill by 75% or more, but the upfront investment is significant. Most homeowners spend between \$12,600 and \$33,376 to install a complete residential solar system in 2026, with the national average at \$19,873 before incentives. Department of Energy, the all-in cost of a home solar panel system is between \$2. This typically translates to about \$2. The total price depends on your system size, location, roof type. NLR analyzes the total costs associated with installing photovoltaic (PV) systems for residential rooftop, commercial rooftop, and utility-scale ground-mount systems. NLR's PV cost benchmarking work uses a bottom-up. Solar panels cost \$1,200 per panel, depending on the type of panel, home size, energy usage, and labor.
