

The largest solar power plant in the desert

Overview

The Ivanpah Solar Electric Generating System is a concentrated solar thermal plant located in the Mojave Desert at the base of Clark Mountain in California, across the state line from Primm, Nevada., millions of midnight blue solar panels stretch to the horizon, angled toward the sky like reclining sunbathers. It shines at least 300 days of the year, bathing the more than 8. As the Ivanpah solar energy project goes online on Feb.

The largest solar power plant in the desert

Inside the Desert Sunlight Solar Farm, The Largest Solar Power Plant , TIME

The two largest solar power plants in the world--Desert Sunlight and Topaz Solar Farm, about 400 miles (640 km) to the west in central California--have come online in the past three months.
