

# There are people who make photovoltaic panels

## Overview

---

China produces 86% of the world's solar panels each year, according to Germany's Fraunhofer Institute for Solar Energy Systems. In comparison, Europe and North America each produce around 2%. It therefore makes sense that eight of the world's nine largest solar manufacturers are. Whether you are installing solar for your home, business, or a large-scale project, knowing the top brands helps you avoid costly mistakes from low-yield systems. These 12 suppliers are known for their durability. The 10 photovoltaic module producers leading global output face falling prices, fierce competition, and growing manufacturing overcapacity. To assist you in finding the top manufacturers, we've compiled a list of the top 20 solar panel manufacturers in the world: 1. What kind of home do you live in?

The Shanghai-based company has 14 factories in China, Malaysia, Vietnam, and the US, and 57,000 employees - of whom 1,500 work in the firm's eight research and development.
