

Tirana tariffs on imported solar container lithium battery packs

Overview

Visit us online to get the various hs codes and commodity description. The tariffs affect a range of clean energy imports including EVs, solar PV, battery energy storage, and inputs for these. Policy changes affecting the solar portion of the Section 301 tariffs are addressed in a separate. On , the Biden Administration announced changes to section 301 tariffs on Chinese products. For energy storage, Chinese lithium-ion batteries for non-EV applications from 7.5% to 25%, more than tripling the tariff rate. This increase goes into effect in 2026. EDT on AugThe White. All the applicable provisions for lithium batteries will need to be followed by the shipper of such devices, including the limitations for devices that are “active” (on) during transport. The IATA Temperature Control Regulations (TCR) also apply to such shipments. [pdf] New modular designs enable capacity.
