

TI494 produces high power inverter power supply

TL494 produces high power inverter power supply

Designing Switching Voltage Regulators With the TL494

The TL494 power-supply controller is discussed in detail. A general overview of the TL494 architecture presents the primary functional blocks contained in the device.

300w power inverter using TL494 with feedback

Let's build a simple 300w power inverter using TL494 with a feedback system. This inverter works based on a high frequency; its operating frequency is around 30-50khz. The normal ...
