

# Togo Energy Storage System Production Plant

## Overview

---

Togo has begun construction on a 25 MW solar plant with 36 MWh of battery storage in the country's north. An installation ceremony for the project took place. Togo is taking a significant leap forward in its energy transition by launching a 55 MW pilot project for battery storage. China's TBEA International Engineering is leading the project, which is scheduled for completion within 13 months. The Togo Energy Storage Power Station Field represents a \$300 million investment to stabilize power supply and integrate solar/wind energy. Unlike. (Togo First) - The Togolese Storage Company (STE), responsible for storing and distributing petroleum products, recently inaugurated a photovoltaic plant on its premises. The ceremony, held on Tuesday, May 7th, was attended by various dignitaries. With an installed capacity of 90.6 Kwc across 426. Washington | Octo— Agence Française de Développement (AFD) and the Global Energy Alliance for People and Planet have signed a USD 200,000 contribution agreement. This agreement will finance feasibility studies for a battery energy storage system (BESS) project in Togo - a crucial step. A solar PV plant with a battery energy storage system in Togo is set to expand its capacity to provide electricity to thousands more households.
