

Togo s oil refinery uses an IP54 outdoor cabinet with an 80kWh capacity

Overview

Our 200KWh Outdoor Cabinets energy storage system is built with IP54 protection, ensuring it can withstand harsh weather, from scorching sun to torrential rain. IP54 is one of the most common ingress protection (IP) ratings used for electrical guide cabinets, industrial enclosures, and outdoor equipment. It defines a specific level of defense against dust and water, based on the international standard IEC 60529. For equipment manufacturers and engineers. IP54 enclosures provide a protective casing that protects your manufacturing equipment from water splashes and dust. We'll compare IP54 with other ratings and highlight where it works best.
