

# UAE high power energy storage equipment quotation

**LPSB48V400H**  
**48V or 51.2V**

## Overview

---

Our battery systems are built to handle installations on a variety of scales from small scale to large MW commercial properties. If you would like to know more about battery storage systems and how they can benefit your business, please speak to us today for a free quotation. Atlas Copco's industry-leading range of Lithium-ion energy storage systems expands the spectrum of suitable applications and provides operators with increased options for power, taking modular energy storage to a new level. Saudi Arabia's NEOM New City and the "Saudi Vision 2030" project are also accelerating the large-scale deployment of photovoltaic energy storage. For enterprises and households, efficient. This market encompasses a range of technologies, including lithium-ion batteries, pumped hydro storage, and advanced flywheel systems. Government initiatives and policies aimed at. CAES could leverage. Batteries, power-to-gas and power-to-heat systems promote power supply independence, free up the power grid and incorporate the mobility and heat sectors in climate protection - and all rely on WAGO controllers.
