

VAT on solar container battery sales

Overview

The Government announced in December, that from February 1 st 2024, there would be zero VAT to pay on stand alone battery storage systems. Previous to this, battery storage was only exempt from VAT if installed as part of a solar panel system. Copyright 2023 Andersen Tax LLC All rights reserved. Battery energy storage systems. But when it comes to energy storage—a \$33 billion global industry generating 100 gigawatt-hours annually [1]—VAT (Value Added Tax) policies can make or break innovation. This success in the tax battle aligns with the confirmation from the MCS (Microgeneration Certification Scheme) that 2023. In this announcement, we capture the key factors that will allow you to get VAT Relief for energy storage devices and specifically batteries The relief applies to the services of installing energy-saving materials in residential accommodation and charitable buildings.
