Overview

At their core, solar wall lamps consist of a solar panel, an LED light source, a rechargeable battery, and a control circuit. The larger the solar panel, the brighter the light will be as they have a greater charging. Check each product page for other buying options. Price and other details may vary based on product size and color. Discover more about the small businesses partnering with Amazon and Amazon's commitment to empowering them. Receive Free Shipping when you choose wall mount. These lamps use sunlight to illuminate your garden, patio, or yard without using any power source, making them an efficient and sustainable choice. Featuring a vintage Edison-style bulb, this solar-powered wall light combines modern design with classic farmhouse elegance. 2V 3000mAh battery, it delivers 100 lumens.
