

# Waterproof Folding Container Type for Wastewater Treatment Plants Oslo Solar

ESS

## Overview

---

Based on AAO-MBR technology, our patented intelligent integrated waste water treatment container is a new type of waste water treatment container with high-throughput plate microfiltration membrane as the core component. These KLARO container systems to treat the wastewater. Today, the village of Ny-Ålesund is the northern-most settlement in Europe. This is a well-suited service for smaller waterworks, and for those who want a more “mobile” solution. Our container solutions are delivered in 10-, 20- and 40-foot. The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. This position ensures maximum energy harvest. Panels lay flat on. By choosing pre-designed, module-sized plants, fully assembled in standard 20-ft and 40-ft containers with the option for a 10-ft as well, the complexity and construction of building water purification systems are no longer necessary.

## Waterproof Folding Container Type for Wastewater Treatment Plant

---

### Mobile wastewater treatment plants in containers

KLARO Container is a flexible and mobile wastewater treatment system that can be used where a wastewater treatment system is required but there is no connection to the sewer system.
