

Waterproof grade standard for outdoor base stations

Overview

Telecom base stations on rooftops require IP66-67 die-cast enclosures for long-term rain and EMI protection. KDM's outdoor telecom enclosures are weatherproof, rainproof, waterproof, sun-proof, and dustproof cabinets with IP ratings of IP55 up to IP67 ratings and NEMA standards of 3R up to 6. They have adjustable rack sizes and spacing, a 3 and 4-point locking system, and solar caps to manage heat loads. LNK-AP80 is an Qualcomm Solution 11ac high power industrial use Outdoor CPE with the next generation 802. 11ac Wi-Fi standard, combined 1200Mbps Wi-Fi speed over 2. In this blog, we will focus on IP65, IP66, and IP67. Understanding these standards is essential when choosing equipment that can withstand the real-world. This article breaks down the differences between common IP (Ingress Protection) ratings, specifically IP63, IP64, IP65, IP67, and IP68.
