

# Weight of JinkoSolar 265 photovoltaic panels

## Overview

---

The module - which measures 2,411×1,134×35mm, weighs 31.1kg and features 156 p-type monocrystalline cells - is available in five versions with power outputs of 565-585 W and efficiencies of 20.5 busbar solar cell adopts new technology to improve the efficiency of modules, offers a better aesthetic appearance, making it perfect for rooftop installation. Eagle modules pass PID test, limited power degradation by PID test. Product is no longer manufactured. Solar Panel Series Eagle 60P 265-285Watt. com Tiger Bifacial 445-465 Watt Tiling Ribbon (TR) Technology Positive power tolerance of 0—+3% Jin1<O In KEY FEATURES TR technology + Half Cell TR technology With Half cell aims to eliminate the gap to increase module efficiency (bi-facial up to 20.43%) 9BB instead Of 58B 93B. See the table below for available information we have about Jinko Solar Co Ltd JKMS265PP-60 solar panels. We have an image for Jinko Solar Co Ltd. To compare updated solar panel prices by brand, system size, and more, check out our article on the cost of solar. Power (measured in watts) and efficiency (how well panels convert sunlight to electricity) are some of the most common metrics used to compare solar panel products. 19%), through superior manufacturing technology. Anti-reflective coating improves light absorption and reduces surface dust. High salt mist and ammonia resistance.

## Weight of JinkoSolar 265 photovoltaic panels

### JKM265PP-60: 250-265 Watt , PDF , Electrical Engineering

The document provides information about a JinkoSolar photovoltaic module. It includes specifications for the JKM265PP-60 polycrystalline solar module, which can achieve up to 265W of power output.
