

# What is the price of flexible self-adhesive photovoltaic panels

## Overview

---

The cost of solar photovoltaic flexible panels varies based on several factors, including brand, wattage, efficiency, and installation specifics. On average, prices range from \$1 to \$3 per watt, translating to approximately \$100 to \$300 for a standard flexible solar panel. 5% efficiency for monocrystalline and 19% for CIGS technology, making them increasingly competitive with rigid panels while maintaining superior installation versatility. Clicking “Get Your Estimate” submits your data to All Star Pros, which will process your data in accordance with the All Star Pros Privacy Policy. We did our research and confidently say that these are the best flexible panels.
