

Where can I prove that it is a Longi photovoltaic panel

Overview

By verifying the Authenticity of Longi solar panels, you safeguard your investment and ensure long-term reliability and efficiency. The product barcode is a string of numbers on the front or back of the module as shown in the figure. Longi has established itself as a trusted solar solutions provider worldwide by prioritizing innovation and. These can be used after checking the authenticity in the features of panels. Before Longi Solar Panels were introduced, there were polycrystalline solar panels made from multiple silicon crystals, however, Longi came up with single crystal silicon technology in their. These photovoltaic panels are built using advanced technologies, with high-efficiency monocrystalline solar cells, allowing for high conversion efficiency of solar energy into electricity. It offers a long-lasting marker tha a new world reco ds, and from ponds t with the IEC 61730, IEC 62941, and UL 61730 certification. The modules also include an IEC Class C fire resistance el even after following all the above points.

Where can I prove that it is a Longi photovoltaic panel

Longi Solar photovoltaic panels

Longi solar panels are used in a variety of applications, including residential, commercial, and industrial solar systems, as well as large-scale solar energy projects such as solar parks.
