

Where to go by photovoltaic panels

Overview

NY SOLAR MAP estimates rooftop and ground mount solar electric potential (PV panels) and connects you to local solar resources. The NYC Grid Ready Solar project is working to reduce technical and financial barriers for large-scale PV projects in NYC. The recent growth of large-scale PV installations on the electric grid resulted in the need to address potential adverse technical impacts in certain locations, as currently. As New York continues to face some of the highest electricity rates in the nation, it is simultaneously seeking to meet renewable energy goals through strong New York solar incentives. By combining a solar panel.
