

# Which is the best double-glass solar curtain wall in Tokyo

## Overview

---

Here, we outline for five ways to harness this architectural feature, while reducing its overall environmental impact. Hanging in front of the third and second floor, the tent-fabric curtains not only control views, privacy, and light but also insulate the building. Like. Mori JP is the centerpiece and latest tower in Azabudai Hills, a mixed-use development by Japanese developer Mori Building Company. The 1,082-foot tower was designed by Pelli Clarke & Partners and inserted among the sea of skyscrapers in Tokyo's Minato ward, the city's largest business district. With 92% of Tokyo's electricity still generated from non-renewable sources (2023 METI report), photovoltaic curtain walls have emerged as game-changers. I can withdraw my consent at any time by unsubscribing. I agree to Inhabitat's Terms of Use, Privacy Policy, and to the.
