

Xikaide Solar Photovoltaic Power Generation

Overview

With photovoltaic technology products as the core, the company is specialized in the production, application, research and development and sales of solar power supply system, solar emergency power supply, solar grid-connected power generation system, LED lamps and. With photovoltaic technology products as the core, the company is specialized in the production, application, research and development and sales of solar power supply system, solar emergency power supply, solar grid-connected power generation system, LED lamps and. Xuzhou Xikaide Energy Co., Ltd, the company was founded in 2014-09-09. The company address is located at 1-2/F, Building 32 #, Phase II, Liandong U Valley, Leye Road, Xuzhou Economic and Technological Development Zone - Xuzhou Economic and Technological Innovation Valley. Our company offers variety. 3. 2mm super white bottom toughened, transmittance up to 93%, can effectively resist hail, rain and snow; Can withstand 5400PA wind and rain impact. It is a leading manufacturer of solar photovoltaic products and a high-tech service provider with strong comprehensive strength. The PV power generation potential of the provinces east of this line basically does not exceed 3 PWh, and most of them do not exceed 1 is able to supply continuous power to load. Battery Type: Monocrystalline Silicon.

Xikaide Solar Photovoltaic Power Generation

Xikaide Solar Photovoltaic Power Generation

1 Introduction. Among the most advanced forms of power generation technology, photovoltaic (PV) power generation is becoming the most effective and realistic way to solve
