

Yun Solar Photovoltaic Power Generation Project

Overview

Recently, the 98,000-kilowatt photovoltaic power station project in Yingjiang, Yunnan, undertaken by China Power Construction's No. 9 Hydropower Bureau, completed its first grid-connected power generation, laying a solid foundation for full-capacity grid-connected power generation in. able solar photovoltaic electricity generation. 27 -- Southwest China's Yunnan Province on Monday inked photovoltaic project deals with a total generation capacity of 10 gigawatts in a green drive to alleviate its power supply shortage. The project is located in Naman Village of Kangping Town, Pu'er City, Yunnan Province.
