

Zambia invests in solar power station

Overview

Zambia inaugurated a 20 MW solar photovoltaic plant in Lusaka to diversify its power mix amid climate-driven hydropower constraints. Kiyona Energy, a ZESCO subsidiary, developed the project and will allocate 2 MW directly to the Natural Resources Development College. Developed by the state-owned North-Western Railway Development Corporation (NRDC), this project marks. The Chisamba Solar Power Plant is a 100 megawatt (MW) grid-connected photovoltaic (PV) solar power station in Chisamba District, Central Province, Zambia. Moreover, it plans to deliver up to 1 GW of solar power under the agreement. The groundbreaking ceremony, held on Septem, in Maamba, Southern Province, was attended by government officials, investors, and.
